Professional Summary

1993 to Date

Ms. Alguire is employed as a Senior Consultant with Willis, Graves & Associates, Inc. She performs crude oil and natural gas consulting services for mineral owners, producers, pipelines and purchasers. Ms. Alguire has completed offshore production platform and natural gas processing plant audits evaluating producer and royalty owner allocations and payments. She has also evaluated commodity pricing and delivery quality under various agreements in support of market value, tax, price deficiency and royalty litigation. Ms. Alguire has testified as an expert on market value and post-production expense issues.

1990 to 1992

Prior to joining Willis, Graves & Associates, Inc., Ms. Alguire was a Senior Consultant with EnerPro, Inc. While with the firm Ms. Alguire audited payments received by producers and royalty owners and conducted the redetermination of natural gas purchase contract prices for numerous clients. Ms. Alguire also audited natural gas processing plants for compliance with purchase and processing contract terms. She completed the analysis of long-term gas supply proposals from various suppliers to serve multiple cogeneration projects and created gas transportation models forecasting rates for public power authority and cogeneration clients.

1984 to 1990

Prior to joining EnerPro, Inc., Ms. Alguire was employed as Managing Assistant Engineer with Don Ray George & Associates, Inc. Ms. Alguire acquired extensive experience supporting oil and gas litigation and regulatory hearings at the Railroad Commission of Texas. Her primary duties included information technology management, document research and exhibit preparation for six testifying expert petroleum engineers. Other duties included Local Area Network supervision, hardware and software purchasing, and the employment and scheduling of up to twenty petroleum engineering technical assistants.

1982

Ms. Alguire worked as a marketing assistant for IBM, Inc. during the summer of 1982. Her duties included developing new customer accounts and demonstrating personal and mini-computers to potential users.

Education and Professional Affiliations

Ms. Alguire received a BA from the University of Texas at Austin in 1988 with a major in economics and a strong background in mathematics and engineering. Ms. Alguire is a member of the Council of Petroleum Accountants Societies (COPAS), the National Association of Royalty Owners (NARO) and the Society of Petroleum Engineers (SPE). Ms. Alguire became a member of Tau Beta Pi, the National Engineering Honor Society while studying at the University of Arkansas.
