Whitten, et al. v. Texaco, Inc.* - royalty valuation relating to the sale of a gas processing plant.

1988-1989:

Prior to his employment with **Willis, Graves & Associates, Inc.** Mr. Berghammer was a Principal of *Planmetrics, Inc.* of Chicago, Illinois serving as Vice President - Operations of the EnerPro division. Planmetrics, established in 1969, provides specialized software, management and financial consulting services to electric and gas utility companies. Mr. Berghammer had direct management responsibility for the majority of the engagements involving the firm's natural gas practice services. This responsibility included the design and supervision of revenue analysis and research engagements, the design and implementation of gas transaction accounting systems, and the development and implementation of other client services.

In addition to management responsibility for gas producer services, Mr. Berghammer also participated in a variety of consulting projects servicing local distribution company (LDC) and end-user clients. These projects include the projection of interstate pipeline transportation and commodity tariffs on behalf of a northeastern LDC, assisting a marketing affiliate company in formulating and deploying a gas supply strategy with southwest and gulf coast suppliers, the analysis of gas technology as a means to increase demand and balance load factors for a combination utility company, and the negotiation of long term supply and transportation arrangements for cogeneration facilities. Mr. Berghammer has performed analyses of gas markets, supply basins, reserves and storage fields.

1983-1987:

Prior to his employment with Planmetrics, Inc. Mr. Berghammer served as an Associate & Senior Consultant with *EnerPro, Inc.* and was responsible for completing specific project assignments relating to the firm's services in connection with the first sale of gas. During this tenure Mr. Berghammer gained a broad range of industry experience serving in a variety of capacities on behalf of numerous gas producers. Particular concentrations in the areas of applied analysis, gas market analysis and software system design are described below:

Conducted the audit of wellhead and plant processing payment transactions involving thousands of producing properties and the review of sales contracts, operating agreements, division orders and mineral leases primarily with respect to pricing, gas measurement, and allocation provisions.

Assisted producers in regulatory matters including compliance under the *Natural Gas Policy Act of 1978*, and FERC Orders 93, 94, 380, 399 436/500, 451 and 490.

Completed price research utilizing a variety of public data sources and performed survey research work to fulfill contract price redetermination and gas marketing requirements.

Developed programs used to disseminate price data for use in company publications.

Designed and developed computer software to audit gas payment transactions, manage mineral royalty income, simulate & project gas processing and other gas revenue allocations, perform contract administration functions, and, maintain Texas severance tax marketing deductions.

Publications and Seminar Presentations

Mr. Berghammer's education and professional work has included publications and seminar presentations:

Security of Federal Computer Systems; The University of Texas at Austin, 1983.

Natural Gas Producer Prices; monthly periodical reporting natural gas prices and contract activity, Federal Programs Advisory Service, 1984-1987.

Natural Gas Marketwire; daily wire service reporting natural gas spot market prices and contract activity, Belvoir Publications, 1987-1988.

Take or Pay Case Study; seminar presentation for the "Natural Gas Audit Briefing" conference sponsored by Executive Enterprises, 1988.

Audit Tools and Research Sources; seminar presentation for the "Natural Gas Audit Briefing" conference sponsored by Executive Enterprises, 1988.

Targeting Properties For Audit; seminar presentation for the "Natural Gas Revenue Accounting" conference sponsored by Executive Enterprises, 1987.

Education and Memberships

Mr. Berghammer received a B.A. degree magna cum laude with mathematics concentration from St. Mary's University in 1981. Mr. Berghammer earned his M.P.A. degree from the Lyndon B. Johnson School of Public Affairs, at the University of Texas, Austin in 1983. Mr. Berghammer is a member of the Delta Epsilon Sigma Honor Society and is listed in *Who's Who in the South and Southwest* (23rd Edition).
